COURSE OF INSTRUCTION.

Approved by the State Authorities.

ELEMENTARY COURSE.

A thorough knowledge of the branches taught in common schools, as required by law, including higher arithmetic and higher grammar ; also,

PHYSICAL GEOGRAPHY, as much as found in Warren's ; and Mathematical, as much as found in Smith's.

ETYMOLOGY.—Prefixes and suffixes, as found in ordinary text-books ; scientific terms of the studies of the course ; Grim's laws, Max Muller's principles, and Trench's study of words.

GEOMETRY.—Plane and solid Geometry, including the measurement of the surface, the volume, the prism, the pyramid, the cylinder, the cone and the sphere.

ALGEBRA.—As found in elementary text-books.

BOOK KEEPING.—Single entry, as found in ordinary text-books, with a knowledge of the use of checks, notes, drafts, &c.

PHYSIOLOGY.—As found in the larger common school text-books.

NATURAL PHILOSOPHY.—As found in the ordinary text-books, with use of apparatus.

BOTANY OR GEOLOGY.—As found in ordinary text-books.

HISTORY UNITED STATES AND CONSTITUTION.—As in ordinary text-books.

PENMANSHIP.—To be able to teach and explain some approved system.

DRAWING.—Two books of Bartholomew's drawing books, and sketch upon the blackboard, objects from nature and art.

VOCAL MUSIC.—Principles as found in ordinary text-books, and attendance upon daily exercises for at least one-third of a year.

THE THEORY OF TEACHING embraces three things, namely:

1st. A knowledge of the mental and moral powers, and the methods of training them.

2d. A knowledge of the methods of teaching the different branches of study.

3d. A knowledge of the methods of organizing and managing public schools.

THE PRACTICE OF TEACHING includes forty-five minutes daily practice in the Model School, and two meetings each week for the discussion of the practice of teaching.

THE THEORY OF TEACHING must be commenced the second half of the junior year, and continued during the entire course.

SCIENTIFIC COURSE.

PLANE AND SPHERICAL TRIGONOMETRY AND SURVEYING.

HIGHER ALGEBRA.—As found in ordinary text-books.

ANALYTICAL GEOMETRY AND CALCULUS.

CHEMISTRY.—As found in ordinary text-books.

NATURAL PHILOSOPHY.—As much as in Olmsted, revised by Snell.

ZOOLOGY.—As found in Agassiz and Gould.

GENERAL HISTORY.—As found in Weber or Wilson.

ENGLISH LITERATURE.—As found in Shaw.

ASTRONOMY.—As found in Loomis.

LOGIC.—For one-third of a school year.

MENTAL AND MORAL PHILOSOPHY.—As found in ordinary text-books.

MISCELLANEOUS PROVISIONS.

THESIS.—In each course a thesis must be written upon some educational subject.

SUBSTITUTIONS.—Ladies may be permitted to substitute for Spherical Trigonometry, Analytical Geometry, Calculus and the Mathematical parts of Natural Philosophy and Astronomy, an equivalent amount of Latin, French or German.

SCHOOL YEAR.—Shall consist of forty-two weeks.

AT EXAMINATION, a paper stating that the candidates have completed the course of study for Normal Schools; have taught the required time in the Model School, and have been examined and approved by the faculty, shall be presented to the Board of Examiners.

RECOMMENDATION.—The pupils of the Normal School are recommended to study the Latin, French, and especially the German language, as far as practicable.

3d Term.—Butler's Analogy; Science of Language, *Muller*; General Topics in History; History of Civilization, *Guizot*.

CLASSES.

Classes are formed in the school outside the regular course somewhat according to the wants of the students; but classes beginning with the school year, usually continue from one term to another without change.

It is recommended that those purposing to graduate in the Elementary or Scientific course, should pursue Latin or the Modern Languages at least one year.

The books used in German are Woodbury's New Method, Woodbury's German Reader, Works of Gothe and others.

In French, Fasquelle's French Course, French Reader, Pujol and Van Norman's Complete French Course, Corinne, Piccola.

It is very desirable to form all classes in the languages the first term of the school year, and that those commencing any language should continue at least one year.

EXAMINATIONS.

The examinations for graduation are conducted by the Faculty of the School, and by a Board of Examiners.

The Faculty first examine the candidates, and if found qualified, they refer them to the Board.

The Board of Examiners consist of such Principals of the State Normal Schools as may be designated by the Superintendent of Common Schools ; and the examinations are to be conducted in the presence of the State Superintendent, and the County Superintendents of the 5th District.

A thesis upon some educational subject is required as a part of the examination.

STATE APPROPRIATIONS

TO STUDENTS AND GRADUATES.

By a recent Act of the Legislature, the following appropriations are made by the State to Normal Students and Graduates:

1. Each student over *seventeen years* of age, who shall *sign a paper* declaring his *intention* to teach in the Common Schools of the State, shall receive the sum of FIFTY CENTS *per week* towards defraying the expenses of tuition and boarding.

2. Each Student over *seventeen years* of age, who was *disabled in the military or naval service* of the United States, or of Pennsylvania, or whose *father lost his life* in said service, and who shall sign an agreement as above, shall receive the sum of ONE DOLLAR per week.

3. Each student who *upon graduating* shall sign an agreement to teach in the Common Schools of the State *two full years*, shall receive the sum of FIFTY DOLLARS.

4. Any student to secure these benefits, must attend the School at least one term of twelve consecutive weeks. These benefits are to be deducted from regular expenses of board and tuition.

DIPLOMAS.

A student graduating in the Elementary Course, will receive a diploma, in which will be named the branches he has studied, and by which he will be constituted BACHELOR OF THE ELEMENTS ; the Diplomas of those graduating in the Scientific and Classical Courses, will enumerate the distinctive branches of these Courses, and constitute their holders, respectively, BACHELORS OF THE SCIENCES, and BACHELORS OF THE CLASSICS.

Regular graduates who have continued their studies for *two years*, and who have practiced their profession during *two full annual terms** in the Common Schools of the State, and who have presented to the Faculty and Board of Examiners, a certificate of good moral character and skill in the Art of Teaching from the Board or Boards of Directors in whose employ they taught, countersigned by the proper County Superintendent, may receive second Diplomas, constituting them MASTERS in the several studies embraced in the Course in which they graduated, and conferring upon them corresponding professional degrees, as follows:

Teachers of Elementary Didactics.

Teachers of Scientific Didactics.

Teachers of Classical Didactics.

The Normal School law makes it the duty of the authorities of the Normal Schools to grant Diplomas or State Certificates to actual Teachers in Common Schools, without their having attended the Normal Schools as students. The following are the conditions upon which these Diplomas will be granted :

1. Each applicant must be 21 years of age, of good moral character, and have taught successfully during three consecutive terms in a common school or in common schools in this State ; the proof of age to be the declaration on honor of the applicant, and of moral character, and the satisfactory discharge of the requisite terms of teaching, a certificate from the proper Board or Boards of Directors, signed by the President

*An annual term must be at least *four months*.

and Secretary and countersigned by the proper County Superintendent or Superintendents.

2. The examinations to be in the Elementary, Scientific, or Classical Course, as the applicant may select, according to the list of studies as printed in the circulars of the State Normal Schools, and approved by the Superintendent of Common Schools, or in such other studies as may by the Board of Examiners be deemed equivalent.

3. Any person obtaining a certificate in the Elementary or Scientific Course, may, at the next or any succeeding annual examination, be examined for the higher course, and obtain the proper certificate.

4. Each applicant to prepare and present to the Board of Examiners an original thesis on some professional subject, of not less than six folio pages of manuscript, to be retained at the school where the examination takes place.

5. The examination and certificate to be without expense to the applicant, and the certificate to be full evidence of qualification to teach the branches therein named, in any part of the State, without further examination.

6. Practical teachers attending examinations at State Normal Schools, for the purpose of procuring State Certificates, should be examined separately from the regular students, and both the Board of Examiners and the Faculty of the school at which the examination is held should take part in the examination, all being required to sign the certificate.

All the Diplomas are authorized and furnished by the State, and exempt those who hold them from any further examination by authorities acting under the provisions of our Common School laws.

APPLICATION FOR TEACHERS.

Many Principals of Academies and Seminaries, and Directors of Common Schools apply to us for Teachers. We are always glad when we can answer such requests by furnishing good teachers, but we are better able to do so near the close of each term. Our friends must not suppose, however, that *all* persons who attend our school three to six months, are made good teachers.

We hold ourselves responsible only for graduates.

Terms.

The Normal year is divided into three terms, 14 weeks each.

Expenses.

Tuition, Boarding, including Heat, Light, Room Rent and Washing, \$62.00 per Term ; \$186.00 per year.

Tuition, without Boarding, \$10.00 per term ; \$30.00 per year.

All Bills payable strictly one term in advance. Bills to be paid Sept. 7, 1870; Dec. 12, 1870; March 27, 1871.

PENMANSHIP—24 LESSONS, \$1.50.

Music.

Piano, Organ, Cultivation of Voice, Thorough Bass, Musical Composition, each, \$1.00 per week, (two lessons per week.)

No Extra Charge.

Students' Rooms are furnished with Stoves, Chairs, Tables, Stands, Pails, Bedsteads, Mattresses, Pillows and one Comfortable.

Students boarding in the building furnish their lamps, mirrors, wash-bowl and pitchers, napkins, towels, pillow slips, sheets and one comfortable, *which, together with all clothing, should be distinctly marked with the full name.*

All bills (except music, drawing and painting bills, which are settled with the Professors of the respective departments,) must be settled with the PRINCIPAL, who acts in behalf of the Trustees, to whom all applications for rooms or admission to the school should be made.

MUSICAL DEPARTMENT.

METHOD OF INSTRUCTION.

The course in Music is identical with that of the most successful music schools in the country. It opens the shortest possible road to a *solid musical education*, saving a vast amount of time and labor.

In the preliminary exercises, lessons are prepared with the greatest care to secure a thorough training and development of the muscles of the fingers and hands, together with flexibility of the wrists.

The most diligent and faithful practice of studies is required and must not, under any circumstances, be neglected for the practice of pieces.

Government.

The government of the School is based upon the principle, "*Do right because it is right.*"

Special efforts are made to secure obedience to regulations by the cultivation among our pupils of a *high sense of honor*.

The positive regulations adopted are based upon the following principles :

1st. No student should be allowed to trespass upon the rights and privileges of another.

2d. Privileges that all cannot enjoy should be granted to none.

It is taken for granted that every student who enters the school is disposed to do right, and to obey the particular regulations of the school, and implicit trust is placed in his sense of honor and propriety.

If pupils are not doing well, either through indolence, negligence, or otherwise, their parents or guardians will be informed of it.

If this does not secure attention to duties, a request will be made for their withdrawal, or they will be removed by the authorities of the school.

Parents and guardians are earnestly requested not to send us persons who have contracted bad habits, as the safety of others will demand their dismissal.

Every care is taken to remove temptation to wrong doing, but upon the discovery that a student *cannot be trusted*, he will be removed from school.

Societies.

The "Normal Literary" and the "Athenæan" meet every Saturday evening for Literary improvement.

The members are of both sexes.

Location.

Mansfield is a borough of some six hundred inhabitants, situated on the Corning and Blossburgh Railroad, thirty miles from the former place. It is easy of access from all points. From the Southern part of the State by the Pa. R. R. and N. C. R. R. to Troy, from which place a daily line of stages runs over the remaining distance of sixteen miles. Or by going through Elmira, the whole distance may be traveled by railroad. The difference in time and expense is slight. In either case, students leaving Philadelphia in the morning arrive here at 10:30 A. M., of the next day, stopping over night at Troy or Corning, N. Y. Expenses through about ten dollars.

Buildings and Fixtures.

The building is of brick, one hundred and fifty feet in length by fifty feet in width. The main building is five, and the wings four stories high, including the story of sky-lights. The rooms for students are large, with extra height of ceiling.

The grounds about the building have been somewhat extensively ornamented with trees and shrubbery during the past few years.

The cost of the buildings and grounds is about thirty-six thousand dollars.

The building is now furnished with furniture of the most approved style, together with an extensive collection of maps, charts, and works of reference. The Philosophical apparatus, which is now quite large, will receive additions, such as may be needed to make it all that could be desired in an institution of this character.

General Remarks.

The Trustees are much gratified in being able to state to the public, in this their Annual Catalogue, that the success of the Institution, under its present management, has succeeded their most sanguine expectations.

The demand upon the school for rooms, calls in the most urgent manner for more buildings. It is hoped that the way may be opened ere long for making the needed additions. A building of equal size with the one now occupied is required to meet the wants.

The boarding hall is so arranged that students are grouped in families of ten or twelve at the tables. This grouping is made with distinct reference to the cultivation of social habits, and the rules and usages of good society. Each table has an equal number of each sex alternately seated around it. By this arrangement, very many of those rude and unrefined habits so often met with in boarding halls are done away with.

As in the home circle, the association of brother and sister is beneficial, so in the school-room the co-education of ladies and gentlemen is deemed mutually beneficial; and we have invariably found, that the good sense of both, when under proper restraint and regulation, has developed a social intercourse which has been productive of a greater growth in mental and moral culture.

The four churches of the place furnish opportunities for religious worship on the Sabbath, and each student is required to attend some place of worship at least once on the Sabbath, unless for *special* reasons he may be excused. Among the other religious privileges of the school, are the Sabbath Morning Bible Classes and Sabbath Evening Prayer Meeting. Students are cordially invited to attend them. Much good, it is hoped, has been done by these instrumentalities.

Regulations.

1. Students entering are required to register their names at the Principal's office and pay the Term Bill.

2. Every student is requested, on entering, to give the Principal information in regard to the following particulars : Whether he designs fitting himself for a teacher ; what length of time he designs remaining in the Institution, and whether he desires to pursue the regular course for Graduation.

3. Students who have never been employed as Teachers, are requested, before presenting themselves to County Superintendents for examination, to make known their intention to the Principal.

4. Students boarding in the building are requested to provide themselves with *slippers*.

5. The hours regularly assigned to study are to be faithfully devoted to the preparation of the exercises required.

6. All students are requested to attend the morning and evening Chapel exercises ; the evening Chapel exercises, however, are voluntary on the part of those who do not board in the Normal building.

7. The study hours during the year are as follows : A. M., 8 to 12 ; P. M., $1\frac{1}{2}$ to $4\frac{1}{2}$, and from Evening Chapel (7 o'clock) till $9\frac{3}{4}$. The retiring hour is $9\frac{3}{4}$ in the evening.

8. No verbal excuses are received for absences from Chapel exercises or from any class exercises ; but cards of excuse will be granted by the proper authority where satisfactory reasons are given. These cards should be obtained before the absence when practicable. All students connected with the institution, whether boarding in the building, in clubs or private families, wishing to leave town, are requested to obtain a card from the Principal, stating the time they are to be absent. These cards are to be given to the Registrar.

9. Each student will be held accountable for any disturbance or damage in his room.

10. No nails must be driven into the walls or ceiling, or alterations be made in the windows, doors, or any appendage of the rooms, without the permission of the Superintendent. The Superintendent will visit each room, at least once a week, and, if damaged, it may be repaired, or, if unnecessarily dirty, it may be cleansed at the expense of the occupant.

11. No water, dirt, or other material, must be thrown from the windows.

12. Students are not allowed to visit one another's rooms during the regular hours of study, and no change of rooms must take place without permission from the Principal.

13. Each student of Music on the Piano or Melodeon will have regular hours assigned for practice, during which time no spectator must be present to interrupt the exercise or divert the attention.

14. All students who are tardy, unnecessarily, at meals, must forfeit them ; all must conduct themselves at table in a becoming and orderly manner, and no one must leave before the rest without good reason and permission from a teacher. Any Student sick or indisposed, and requiring attention, must have himself reported to the Matron, and he will be waited upon in his room.

15. It is expected that the ladies and gentlemen of the Institution will treat one another with politeness, but they will not be allowed to assemble in the Chapel, Recitation Rooms or Halls, during Recreation hours, for conversation, except at stated times when permission is given. At the close of evening lectures or Society meetings, all will repair immediately to their respective rooms. Neither sex will be expected to trespass upon that portion of the building assigned to the other.

16. All students desiring their friends to remain at the School for meals, in order to secure seats for them at the table, must give due notice to the Steward or Matron. A violation of these arrangements will be considered a breach of hospitality.

17. Students will not visit the dining room, at any other time than meal time, the wash room, kitchen or the music rooms, without permission.

18. Loud talking, whistling, scuffling, etc., in the building, are prohibited. Pupils violating this rule will forfeit their rooms.

19. The use of Tobacco, in any form, is strictly prohibited in the building.

20. Students wishing books for use in daily recitations, or wishing to pay bills, are requested to attend to this business at the close of the P. M. session of school.

These regulations have been adopted after very careful consideration as to what would best promote the good of the Institution and of those connected with it. It is hoped they will recommend themselves to the good sense of every Student, and be obeyed because they are reasonable and right.
